

NC Center For PT
Physical Therapy Solutions during COVID-19
Effective 04/03/2020

We are open with limited hours! If you have an appointment already scheduled, call so that we can discuss options.

If you are in pain and need relief but are concerned about going to a medical provider and possibly exposing yourself to others with the virus, give us a call.

We are trying to do our part to limit the spread by providing medical services away from virus treatment areas. We can even do video treatments (telehealth) to continue your care after an evaluation in person so you don't have to leave your own home.

However many people are happy to have a good excuse to get out of the house. Call first. **We are taking all recommended safety precautions.** Please feel free to wear a mask or do anything else that makes you feel safer or more comfortable. We have the same goal as you do!
